Optimizing Supply Chain Resiliency Through Integrated Planning & Execution

Priority

Enabling Capabilities

Solution

BlueYonder Azure

Anticipated Value

Cash Flow, Cost Control,
Working Capital Reduction

Inventory optimization to
reduce E&O, maintain
efficient and optimal
operations

ML/AI Inventory Optimization

- Expedited Costs reduction by 30% 
- Reduce Inventory Write-off by 30% 
- Cash Flow preservation 

Minimize Supply Chain
Disruption

Real-time supply chain
visibility, collaboration and
orchestration

Control Tower

- Cash Flow preservation 
- Reducing inventory by 30% 
- Expedited Costs reduction by 30% 

Scenario Planning

Scenario Planning – Impact
on cash flow, P&L based
on different economic
recovery outlooks

Scenario Planning

- Revenue Lift by 10% 
- Reduce Inventory Write-off by 30% 
- Improved Margin Rate by 20% 

Risk Mitigation

Risk-proof your supply –
Alternate suppliers, Multi-
shoring, Regionalization

Supply Chain Risk Mitigation

- Reduction in network operating cost by 12% 
- Increase in Service Levels 96% –99% 
- Reduced transportation costs by up to 25% 

Resiliency, Agility,
Responsiveness

Increase resiliency, agility
and responsiveness by
breaking down the silos
between planning and
execution

Integrated Planning and Execution

- Improved Productivity & Throughput 
- Reduced Inventory Write-Off 
- Reduced transportation costs by up to 25%
